

Health Alliance Plan of Michigan Copay Assistance Benefit Drug List

Update effective January 1, 2024

Please call 1-800-683-1074 to participate. Once you've enrolled in copay assistance and consented to SaveOnSP monitoring your pharmacy account, your responsibility will be as low as \$0.

The specialty medications included in the copay assistance benefit drug list are specific to your plan's prescription drug benefit and subject to change at any time. Prescription drug benefit plan terms will always take precedence. Medications with prior authorization criteria must be approved in advance by the plan and follow applicable laws and/or regulations. The specialty medications included on this list will have a 30% coinsurance. By enrolling in the available manufacturer assistance program and consenting to SaveOnSP monitoring your pharmacy account, **your final cost will be as low as \$0**. Fill your medications through Pharmacy Advantage or another approved specialty pharmacy in cases where Pharmacy Advantage cannot supply the medication. The listing of a medication on this list does not guarantee coverage of the medication. Coverage of a medication is subject to formulary coverage policies and criteria. Nonformulary medications, medications with a generic alternative and medications with prior authorization criteria must be approved in advance by the plan to be covered. List may be updated during the year as needed to optimize the program.
